### **The Achievers**

All achievers are human. Compare any of them: Ronaldo, Pelé, Michael Jordan, Lin Dan. Every single player who is a G.O.A.T. to you is also human.

If you want, you can break any limits too. Your G.O.A.T.s once forgot their limits, and now they have set new ones.

The winner is not always the achiever. Sometimes, the loser receives the greatest gift: knowledge. So, never hesitate to try!

### **My Glasses (Specs)**

They are a part of me. I play with them, and they play a role in my life. When I study or work, they help me see clearly. I've started loving them, even though some people say they don't like wearing specs. But I think it's perfectly normal.

On 17 November 2024, I went to the eye hospital. They told me my eyesight was weak. I felt sad, but my mother comforted me. After a few days, I realised I truly needed them. Since then, I've started taking better care of both my specs and my eyes.

### **My Favourite Player**

As we all know, everyone has a favourite player. My favourite player is Lionel Messi. He is considered the greatest player of all time.

He has won 8 Ballon d'Or awards and 2 FIFA World Cups, and he has scored 837 goals so far. He recently played for Inter Miami, a club based in the USA.

He has received several awards throughout his career. His long-time rival is Cristiano Ronaldo.

Messi also has an energy drink brand called Mas+. He is the brand ambassador for Adidas and has played for several teams, including Barcelona, Argentina, and PSG.
