## MICHAEL PHILLIPS

Michael phillips is a famous swimmer. He does the butterfly stroke.

He is called the god of swimming because he has won 8 gold medals in a single olympic event.

He is the idol of every swimmer and an inspiration to athletes around the world. Although he had some health issues in the beginning, he worked hard and proved himself.

In his last olympic appearance, he participated in 8 events and won medals in all of them.

He is my dream swimmer and my hero. So, this tells us not to judge anyone by their health issues but by their skills.

## Creative Handwriting

My pen always helps me write anything. All it needs is a sheet of paper and enough ink. It is the only thing that helps me a lot throughout the day. I use a black pen for questions and a blue one for answers. Pens are also very cheap. Sometimes we can even paint or draw using their ink.

A good pen, along with speed and neat handwriting, can create great work. Pens are available in many colours as well.

**MEANING: TO TRY SOMETHING NEW.**

## My Superhero: Thor

Thor (played by Chris Hemsworth) is my favorite superhero.

I like him because of his hair, style, hammer (Mjolnir), Stormbreaker, strength, and many other qualities.

He is over 1,500 years old and has defeated Thanos. With the power of the six Infinity Stones, support from Groot, his mighty Stormbreaker, and advanced gear like Mecha shoes, he has faced threats from the Dark Universe and many others.

Despite losing his mother, Frigga; his father, Odin; his brother, Loki; and even his home, he continues to protect people as a true superhero.

Before Asgard was destroyed, he was also the richest Avenger, owning infinite gold. He is also considered the strongest Avenger.
