Monsoon and the Joy of Childhood.

The arrival of the monsoon is one of the most awaited seasons of the year. After months of scorching heat, the cool showers bring relief, freshness, and new life to nature. Trees become greener, rivers and ponds fill with water and the air feels pleasant. The monsoon not only benefits

agriculture and the environment but also brings immense joy to children. For children, the rainy season is a time of excitement and adventure. The sight of dark clouds and the sound of raindrops create a cheerful atmosphere. Many children enjoy playing in the rain, splashing in puddles and making paper boats that float along small streams of water. Parks and playgrounds become lively as children gather to enjoy the weather with their friends. The monsoon also encourages creativity and learning. Children often observe rainbows, watch birds seeking shelter and learn about the water cycle through real-life experiences. Families spend quality time together, sharing hot snacks and stories while enjoying the soothing sound of rainfall. Such moments create cherished memories that remain with children for years. However, it is important to enjoy the season responsibly. Children should avoid playing in dirty water and take precautions against seasonal illnesses. Proper care ensures that the fun of the monsoon remains safe and healthy. In conclusion, the monsoon is a season of happiness, beauty, and learning. Its refreshing showers bring smiles to children's faces and make childhood even more memorable. The joy and excitement that the rainy season offers make it truly special for young minds.

RAINY SEASON

The rainy season is my favourite season.

All the plants get rainwater, and the flowers bloom.

We see pretty rainbows and clouds in the sky.

We see insects and frogs on the road.

I take a raincoat and an umbrella to school.

I play in muddy puddles like Peppa Pig.

I am scared of lightning.

Sometimes I get cold in the rainy season.

MUSIC

Music is my favourite hobby. I love playing the drums because they make loud and happy sounds. I practice every day after school, and I enjoy learning new beats and rhythms. Playing the drums makes me feel excited and energetic. I like performing for my family and friends, and they clap for me. Music helps me stay happy and active. My music teacher teaches me many new things about the drums. I want to become a good drummer when I grow up. Playing the drums is fun, and music makes my life joyful.

THE STORY OF EARTH

Earth is a planet in our solar system. It is the only planet known to support life. About 72% of Earth is covered with water, while 28% is land. It is home to many living beings, including humans, animals, and plants. This planet is also called the Blue Planet or Water Planet because of the large amount of water on its surface.

Earth is the third planet from the Sun. There are eight planets in our solar system: Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune. On Earth, there are more than 190 countries as well as many islands.

Last month our school held the Annual Cultural Program in the auditorium. I was really excited because the fifth graders, including my classmates and me, were going to perform a group dance.

We chose the theme "RAJASTHANI". For 3 weeks, we practiced every day after school. Our class teacher taught us different steps from the Rajasthani dance. It was indeed a memorable experience as I spent time with my friends.

On the day of the program, I was a little nervous at first. But as soon as the music started, all that nervousness went away. We danced with full energy and smiled at the audience. The lights, the music, and the clapping from parents and teachers made it feel so special. Our formations came out perfectly and everyone enjoyed the *dhol* beats. When we finished, the whole auditorium clapped loudly.

For me, this was more than just a dance. It was a memory I'll never forget. I learned how to work as a team, manage stage fear, and take pride in our culture. The program ended with us feeling proud and happy.

INVESTITURE CEREMONY

2nd Edition
1st August, 2026

Being a captain and earning these badges is what students strive for in their school life. I am feeling very lucky and fortunate to have this great opportunity to become a captain. I know that I have a big responsibility, and I will proudly and happily fulfil it. I am forever grateful to all my teachers and this prestigious school for giving me these badges, which are a source of responsibility for me. Thank you
