Empathy and Politeness: Values to Be Instilled from Childhood. Empathy is one of the most precious qualities that can be nurtured in a child. It is the ability to understand and share the feelings of others and to treat all living beings with kindness and compassion. In today's fast-paced world, teaching children empathy from an early age has become more important than ever.

Children should be encouraged to care for animals, birds, plants, and nature. Simple acts such as feeding animals, watering plants, or helping someone in need teach children that every living being deserves respect, care, and protection.

Equally important is the lesson of politeness and respect towards every individual, irrespective of social status or occupation. Children must learn to speak courteously to parents, grandparents, teachers, domestic helpers, drivers, gardeners, security guards, and utility workers. Every person contributes to society in a meaningful way and deserves dignity and appreciation.

The simple words "Please," "Thank you," "Sorry," and "Welcome" should become a natural part of a child's vocabulary. Saying "please" teaches humility when asking for something; "thank you" expresses gratitude; "sorry" reflects the courage to acknowledge a mistake and make amends; and "welcome" makes others feel valued and accepted. These may be small words, but they carry great meaning and reflect a child's character.

The family plays a vital role in shaping these values. Children imitate what they observe at home. When parents and elders demonstrate kindness, gratitude, and respectful behaviour, children naturally adopt these qualities.

Empathy and politeness are not merely social graces; they are the foundation of a harmonious society. By instilling these virtues from childhood, we nurture compassionate, responsible, and respectful individuals who will make the world a kinder place.

The Importance of Trees

Trees are very important to us. They give us fresh air to breathe and help keep the environment clean. Trees provide us with fruits, flowers, wood, and medicines. They also give us shade on hot summer days.

Many birds and animals live in trees, where they find food and shelter. Trees are nature's best pollution fighters. They make our environment green and beautiful. They also help bring rain and protect the earth.

We should plant more trees and take good care of them. There is no reason to cut down trees. Trees are a valuable gift from nature.

My Teacher

A teacher is one of the most important people in our lives. Teachers help us learn new things and guide us to become good human beings. They not only teach subjects like English, Mathematics, Science, and Social Studies, but also encourage us to be honest, kind, and disciplined.

A good teacher explains difficult topics in a simple way and helps every student understand the lesson. Teachers are patient, hardworking, and caring. They inspire us to work hard, believe in ourselves, and achieve our goals. They also teach us the values of respect, teamwork, and responsibility.

Teachers play a great role in shaping the future of society because they educate the next generation. We should always respect our teachers, listen to their advice, and be thankful for their dedication and efforts.

In conclusion, teachers are like guiding lights who lead us toward knowledge and success. I am grateful to all my teachers for their love, support, and guidance.

MY BEST FRIEND

I have so many friends, but **AVVIN** is My Best Friend.

He is always there to play with me.

We both study in the same school.

He lives near my house.

We both love to play with cars; car is our favourite toy.

We like to jump, run and explore together

We both like going to malls on Sunday.

I am very lucky to have **AVVIN** as My Best Friend.

MY FAVOURITE GAME IS CRICKET

My favourite game is cricket. This game is played between two teams. Each team has 11 players. We play this game with the help of a bat, ball, gloves and pads. It is an outdoor game played on a ground. My favourite batsman is Sanju Samson and my favourite bowler is Jasprit Bumrah. I love to watch matches of cricket, and my favourite team is India. I got a chance to watch an IPL Match in 2026 and I am a big fan of Sunrisers Hyderabad. I play cricket daily, and I love it.

INDEPENDENCE DAY

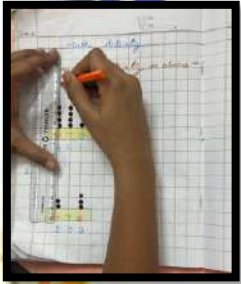

Independence Day was celebrated with great pride and patriotic fervour at the school. The ceremony commenced with the hoisting of the National Flag by Raja Shri Tribikram Chandra Deb of Baramba, President, General Council, Rajkumar College Society. The Principal, Lt. Col. Avinash Singh, extended warm Independence Day greetings to the staff and distinguished guests, adding to the spirit of the occasion. The unfurling of the Tricolour was followed by the National Anthem, filling the atmosphere with a deep sense of patriotism and pride. The celebrations continued with a vibrant cultural programme at Jashpur Hall, where students presented a series of inspiring performances that beautifully reflected the spirit of freedom, unity and love for the nation.

I enjoyed making 3-digit numbers with bindis on the abacus. It was fun and helped me understand hundreds, tens and ones better.

Samarth Panigrahi
Class II D

On 17th August, our maths ma'am made us do an activity on FACT FAMILIES on Chapter Division. I enjoyed the fun-loving activity. It helped me understand the relation between Multiplication and Division and how multiplication is the inverse of division. It helped me to learn the shapes of triangle and a square and using the glitter pens made my activity more enjoyable. Thank you,

Ahana Tiwari
Class III G

MATHS

ACTIVITY

This activity helped us learn multi-digit division using colourful dots, rows and columns. We learnt how to find the quotient by grouping the dots according to the divisor. It was a fun and easy way to understand division.

Kuhu Jain
Class IV G

I learnt that triangular numbers are formed by adding consecutive counting numbers. This activity helped me understand the pattern of triangular numbers in an easy and simple way. I enjoyed making the patterns with bindis. It was fun and easy to understand.
